

## Medical Science Liaison Neuro

Job ID  
REQ-10015837

7月 25, 2024

Russian Fed.

### 摘要

In Medical Affairs we are encouraged to collaborate grow, and work on new ways to increase our impact in the community.

### About the Role

Location: Ekaterinburg, Russia

We are looking for Medical Science Liaison, responsibility for Ural Federal District.

Your responsibilities include, but not limited:

- Develop professional relationships, build advocacy and gain contributions of KOL/decision makers.
- Collect, analyze and report insights (i.e. CRM System) that may impact Novartis development plans /trial designs.
- Provide and discuss scientific information and data to healthcare professionals to ensure quality and accuracy of medical and scientific information on new treatment options including Novartis products

and selected areas of therapeutic interest.

- Provide comprehensive product/disease and therapies presentations and training to internal and external customers, incl. the field force, for the accurate delivery of messages in line with global plans.

You would be a good match for this role, if you have:

- Have university degree in Pharmaceutical Medicine (MD, Ph.D is a plus)
- Strong communication skills
- Team-player, customer focus, result oriented
- Minimum 3 years of experience (pharmaceutical industry, ideally MSL).
- English - intermediate

What we offer for you:

Competitive salary and annual bonus level

Medical insurance (for the employee and children, additional discount given for close relatives)

Life insurance, meal allowance, mobile compensation;

Flexible working hours;

Internal and external educational courses and trainings;

Additional 3 additional days of paid vacation;

Professional and career development opportunities (locally as well as worldwide).

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
