India

摘要

-IT specialist accountable to develop and deploy small scale and less complex cloud based solutions.

About the Role

- Major accountability for the Specialist Cloud Platform Security. Job Summary:
- 2-3 years of experience in information security or a related field.
- Strong understanding of security concepts, principles, and methodologies (e.g., access control, Vulnerability management, cryptography, firewalls, intrusion detection/prevention systems).
- Working knowledge of network security, operating systems (Windows, Linux)
- Cloud security principles (AWS Security, Azure Security) knowledge is plus.
- Experience with security information and event management (SIEM/SOAR) tools a plus.
- Excellent analytical and problem-solving skills.
- Strong written and verbal communication skills. Ability to work independently and as part of a

team. Excellent time management and organizational skills.

- Ability to work collaboratively with a diverse group of technical and non-technical individuals.
- Continuously improve your knowledge and skills by attending training and pursuing industry certifications (e.g., Security+, CCNA Security).
- A passion for information security and a desire to stay up-to-date on the latest trends and threats through continuous learning and participation in training programs.

KEY PERFORMANCE INDICATORS / MEASURES OF SUCCESS

- Adherence to the Novartis IMF security standards
- Deliver on time
- Completeness and quality of deliverables
- Customer feedback (expectations met/exceeded)
- Actively contribute to the business with innovative solutions that show results in the form of cost optimization and / or growth of the business top line revenue.
