摘要

Step into a role where your expertise in data can drive meaningful change in global healthcare. As a strategic leader in data science, you 'll shape innovative solutions using AI, advanced analytics, and smart data management to tackle complex medical challenges. You 'll collaborate across diverse teams and business areas, transforming data into powerful insights that influence key decisions. This is your opportunity to lead with purpose, grow in a supportive environment, and make a lasting impact through the work you do every day.

About the Role

You are applying to be part of the Novartis Talent Pool. We are not currently recruiting for this role, but we are building a pipeline for future opportunities. If you would like to be considered for a similar position in the future, then please submit your CV.

Key Responsibilities

- Drive innovation using data science, AI, and effective data management to solve complex business challenges
- Translate analytical findings into clear, actionable recommendations for non-technical stakeholders
- Develop and implement pathways for effective data use across analytical functions
- Present insights through smart visualization and storytelling to influence strategic decisions
- Allocate team resources efficiently, manage change, and resolve operational risks proactively
- Collaborate with internal teams, external partners, and institutions to deliver impactful solutions
- Evaluate and adopt new technologies and tools to enhance data science practices and efficiency

Essential Requirements

- Minimum of 5 years of experience in data science, with a strong record of applied analytics
- Proven expertise in Python and R programming for statistical analysis and machine learning
- Deep understanding of data governance, data quality, and master data management principles
- Experience with big data technologies and platforms, including Apache Spark
- Strong communication skills to present complex insights to non-technical stakeholders
- Fluent in English, with the ability to collaborate across global, cross-functional teams

Desirable Requirements

- Experience publishing in peer-reviewed journals or presenting at professional conferences
- Familiarity with cross-industry collaboration and external working groups

Commitment to Diversity and Inclusion / EEO: Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
