### 摘要

Step into a role where your expertise shapes the future of digital innovation at Novartis. As a Senior Specialist for Platform Services, you ' ll be at the heart of designing and delivering cutting-edge solutions that enhance user experience, drive operational excellence, and support global healthcare transformation.

Whether your passion lies in software engineering or quality assurance, you ' ll collaborate with diverse teams, contribute to enterprise-grade architecture, and ensure secure, scalable platforms that make a real-world impact. This is your opportunity to lead with purpose, grow with support, and thrive in a culture that values your voice.

### About the Role

You are applying to be part of the Novartis Talent Pool. We are not currently recruiting for this role, but we are building a pipeline for future opportunities. If you would like to be considered for a similar

position in the future, then please submit your CV.

### Key Responsibilities

- Deliver secure, scalable technology solutions that support business systems and digital platforms.
- Ensure timely, budget-conscious, and compliant execution of technology initiatives.
- Collaborate with strategic partners to maximize business value through joint delivery.
- Design enterprise-grade solutions with a focus on reusability, scalability, and user experience.
- Drive engineering excellence through automation, code quality, and DevSecOps practices.
- Monitor platform performance and ensure operational stability and availability
- Stay ahead of industry trends to enhance agility, speed, and innovation.

### Essential Requirements

- Proven experience in a business or industry technology environment.
- Strong background in managing cross-country or multinational projects.
- Demonstrated ability to lead and deliver in Agile project environments.
- Skilled in building partnerships with business stakeholders and external partners.
- Experience in IT service delivery and performance optimization.
- Fluent in English with excellent communication skills.

### Desirable Requirements

- Experience with DevSecOps practices and automation tools.
- Familiarity with user-centered design principles and solution scalability.

Commitment to Diversity and Inclusion / EEO: Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
