

Director M&A, Data Digital & IT

Job ID
REQ-10060713

10月 02, 2025

Czech Republic

摘要

Our Director Merger & Acquisitions (M&A) Data & Digital & IT Represents Data, Digital & IT (DD&IT) in the Novartis Operation M&A transactions (Divestments, Site Development, Acquisitions, Closings) against Novartis Business and against NewCo (Buyer/Seller) to cover all IT related aspects.

In this role, you ' ll manages the respective IT activities during all M&A phases, coordinating all involved DD&IT IT function to ensure M&A specific requirements are met in time and quality. Our Director M&A Data Digital & IT will optimize the use of available human, financial and service resources to provide highest possible business value, in the best interest of the organization. You ' ll collaborate with the "buyer or seller" to ensure a smooth transition of sites, systems and services.

About the Role

Major Accountabilities:

- Represents DD&IT in the assigned Novartis Operation M&A projects to cover all IT related aspects - this includes the following M&A scenarios:
 - Site Divestments
 - Site Development (partial Divestments, onboarding new companies/tenants)
 - Infraparc related transactions
 - Site Acquisitions
- Takes overall responsibility to define, scope and manage the DD&IT related activities linked to Novartis Operation projects with the affected Global Business Functions, the local site and the involved DD&IT Functions.
- Identify, mobilize and manages the required DD&IT team and resources to execute the DD&IT part of the M&A projects
- Involves and coaches the local DD&IT project managers and the affected global DD&IT application managers
- Optimize use of available human, financial and service resources to provide highest possible business value, in the best interest of the organization
- Collaborates with the "buyer or vendor" to ensure a smooth transition of sites, systems and services
- Take accountability to ensure adherence with Security and Compliance policies and procedures within Service Delivery scope (includes the OT / NORA specifics)
- Defines IT related timelines and milestones to achieve the overall timelines of Merger, Acquisition & Divestment projects
- Tailored handover of DD&IT know-how and related documentations (intellectual properties transfer aligned with business owner) to third party to support their system set up and keep operation on going
- System and data migration path for DD&IT systems in line with Books & Records regulations
- Cancellation of services and revoking of user access rights to protect Novartis information assets
- May deviate from existing procedures to ensure success of the overall business transactions, in line with current guidelines and regulations
- Ownership of approved project budgets
- Keep confidential projects protected

Essential Requirements:

- Degree in a relevant field
- Deep expertise in all aspects of complex Enterprise Mergers, Acquisitions and Divestments activities
- Solid expertise in the data & digital domain with demonstrated capability to understand inter-dependences and nuances of data and complex IT systems
- Direct experience working in a senior role within a regulated environment with a proven ability to influence without direct authority across multiple cross-functional teams
- Demonstrated Program/Portfolio Management experience
- Proficiency in storytelling and Change Management expertise, with proficiency in English (written & oral)

Nice to have:

- Scientific or Manufacturing background

- Experience in the Pharmaceutical industry, including know of GxP and/or FDA

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
