Automation Engineer, Digital Finance

Job ID
REQ-10066184

12 01, 2025

India

About the role:
Collaborate closely with Finance associates to drive data-informed decision-making through Operational Excellence initiatives. Responsible for identifying key challenges within Finance operations and developing scalable, efficient solutions by leveraging different automation platforms

About the Role

Key Requirements:

- Automate Business Processes: Design, develop, and implement RPA solutions using Power Automate Desktop/SAP BPA or similar tools to automate routine business processes, enhancing efficiency and accuracy.
- Optimize Automation Pipelines: Continuously improve and optimize the automation pipeline, focusing on scalability, reliability, and performance.

- Data Extraction and Transformation: Develop and optimize processes for extracting, transforming, and integrating data into automated workflows, ensuring the availability of clean, actionable data.
- Stay updated on the latest advancements in RPA, AI, and ML technologies, and continuously explore new tools and methodologies to improve automation solutions.
- Integrate Scripts: Utilize Python, PowerShell, or VBScript to seamlessly integrate with automation platforms, enhancing process efficiency and intelligence. Leverage these scripts to embed machine learning models and AI-driven solutions within automated workflows, enabling predictive analytics, cognitive automation, and intelligent decision-making.
- Communication & Documentation: Effectively communicate complex technical concepts to non-technical stakeholders and document all stages of the automation process for future reference and scalability.

Essential Requirements:

- 2-4 years relevant experience in Power Automate(or any other RPA tool) & Python/PowerShellScript
- Bachelors / Masters in Technology (university degree required)

Desirable Requirements:

- Power Automate Cloud & Desktop / SAP BPA
- PowerShell/VBS/Python Scripting
- SQL
- Database
