摘要

At Advanced Accelerator Applications, a Novartis company, we are committed to leading innovation in nuclear medicine and delivering the next generation of targeted radioligand therapy to cancer patients. We are looking for experienced Manufacturing professionals to help us reach our ambitious goals.

Step into a vital role where your expertise keeps life-changing therapies moving forward. As a Maintenance Technician at Novartis, you ' ll ensure the reliable and efficient operation of a state-of-the-art GMP Radioligand Therapies Production Facility. Your hands-on skills will directly support patient safety and innovation, making a real difference every day. Join a team that values your technical know-how, problem-solving abilities, and commitment to excellence—your work will help deliver hope to patients worldwide.

About the Role

Major accountabilities:

- Perform corrective and preventative maintenance on production equipment and facility systems.
- Troubleshoot and repair process equipment with minimal supervision.
- Interpret technical diagrams and specifications to plan and execute repairs.
- Support 24x7 site-based operations and respond to urgent maintenance needs.
- Ensure accurate documentation of maintenance activities in compliance with cGMP standards.
- Provide feedback to improve operational procedures and training materials.
- Assist with startup, commissioning, and investigations related to equipment and processes.

The salary for this position is expected to range between \$26.45 and \$49.04 per hour.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.

Minimum Requirements:

- High school diploma or equivalent; Bachelor ' s degree preferred.
- Minimum 2+ years of hands-on plant maintenance experience in a GMP environment.
- Ability to follow all procedures, policies, and regulatory requirements.
- Experience working in a team with strong communication and organizational skills.
- Proficient with MS Office, Building Management Systems, and Computerized Maintenance Management Systems.
- Physically able to climb ladders and lift up to 50 lbs.
- Willingness to work nights, weekends, and holidays as needed.
- Capable of wearing protective clothing and working in cleanroom environments.

Desirable Requirements:

- Previous experience in aseptic fill/finish or radio pharmacy environments.

- Completed training in handling radioactive or hazardous materials.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
