Italy

摘要

The Shipment Specialist has as a primary responsibility the shipment operations, packaging inventory management (receipt, stocking, replenishment etc.), shipping/receiving including Lu177 Chloride receipt and final product packaging. Moreover, waste management (radioactive waste and special waste) relating to the packaging area.

About the Role

Major accountabilities:

- Coordination of shipping (also during night shift), receiving, storage and processing of goods.
- Inspect and verify material, labels and documents for completeness and accuracy.
- Maintains the rooms dedicated to the packaging in a tidy state applying good housekeeping principles.
- Ability to operate all applicable radiation detection equipment.

- Actively participate and support all site and team projects and initiatives relating to the packaging area.
- Execute all assigned activities in compliance with internal procedures (HSE, GMP, others) and in compliance with applicable laws and regulations.
- Support the ordering and maintaining inventory of packaging area in conjunction with external supplier, supply chain and other function responsible.
- Promptly report to the Production Manager, Production Head, Radioprotection Expert and/or the HSE Manager any deviation inherent to the assigned activities.
- Acts as back up of other production roles in case of need.
- Supports and interacts with the production supervisor in the execution and/or supervision of the entire batch process including batch record review, aseptic set up, preparation, production and final equipment decontamination.

Essential requirements:

- Minimum of high school diploma.
- Previous experience in a shipment role preferred.
- Willing to work in shifts, including night shifts and weekends.
- Fluent in Italian. Good knowledge of English.

We offer a 1 year contract for this role.
