

## Associate Director, Patient & Payer MDM

Job ID  
REQ-10069938

1月 22, 2026

India

### 摘要

Associate Director, Patient & Payer Master Data Management will be responsible for implementing, management, quality, and integrity of patient data across the organization. This role requires a strong understanding of data management principles, healthcare data standards and the ability to work collaboratively with cross-functional teams to implement data management strategies, policies, and procedures.

### About the Role

#### Key Responsibilities

- Implement the Patient Master Data Management team to ensure accurate and timely maintenance of patient data.
- Includes accountability for operations, implementation of roadmap development and ensuring needs of all IDS sleeves from patient mastering are met

- Implement data management policies, procedures, and standards to ensure data quality and integrity.
- Oversee the integration of patient data from multiple sources and ensure compliance with healthcare standards and regulations.
- Monitor and report on data quality metrics and implement corrective actions as needed.

#### Essential Requirements:

- Bachelor ' s degree in health information management, Data Science, or a related field. A master ' s degree is preferred.
- Strong knowledge of healthcare data standards (e.g., HL7, FHIR) and regulations (e.g., HIPAA).
- Excellent analytical, problem-solving, and communication skills.
- Proficiency in data management tools and software.
- Ability to work collaboratively with cross-functional teams and manage multiple projects simultaneously.
- 10-12+ years of experience in the pharmaceutical or healthcare industry, with a strong focus on patient data management in a healthcare setting.
- Knowledge of data governance and compliance standards.
- 5+ years of people management experience. Proven track record of enabling data-driven decision-making at a senior leadership level, including addressing complex business challenges.
- Strong analytical background, strategic thinking and problem-solving skills, with the ability to translate complex data into actionable insights and aligning them with business priorities to drive impactful results
