摘要

The Senior Analyst will be responsible for delivering data-driven insights and supporting AI/ML initiatives across business functions. This role requires strong analytical skills, hands-on experience with modern data technologies, and the ability to collaborate with stakeholders to translate business needs into actionable solutions.

About the Role

Location - Hyderabad #LI Hybrid

Key Responsibilities

- Support technical aspects of analytics projects, ensuring best practices in data engineering and model deployment.
- Gather and analyze business requirements to design effective data and AI solutions.
- Identify potential risks in data processes and propose mitigation strategies.
- Stay updated on emerging technology trends and assess their applicability to business use cases.
- Represent the analytics team in cross-functional discussions and external engagements when required.
- Recommend relevant data sources and ensure data quality for analysis.
- Collaborate with vendors and internal teams to ensure timely and quality delivery of solutions.
- Research market trends in AI and analytics to propose innovative approaches for business problems.

Requirements

- Education: Bachelor ' s/Master ' s in Computer Science, Data Science, or related field.
- Experience: 3-5 years in data analytics, AI/ML, or related roles.
- Proficiency in Python/R, SQL, and exposure to ML frameworks like TensorFlow/PyTorch.
- Familiarity with cloud platforms (AWS, Azure) and tools like Databricks, SageMaker, or similar.
- Experience with deploying models as services using Azure ML, Kubernetes, and version control tools (GitHub).
- Understanding of AI concepts such as NLP, computer vision, and generative models (e.g., GPT).
- Strong analytical and problem-solving skills with the ability to translate business needs into technical solutions. Excellent communication skills to convey technical concepts to non-technical stakeholders.
- Exposure to data visualization tools (Power BI, Tableau) would be a plus. Knowledge of AIOps practices and model lifecycle management. Ability to research and evaluate new technologies for potential business impact.
