摘要

Step into a role where your technical expertise and problem-solving mindset keep critical manufacturing operations running seamlessly. As a Maintenance Shift Supervisor, you will supervise a skilled team supporting complex production and laboratory equipment in a highly regulated environment, ensuring reliability, compliance, and continuous performance. Your work directly enables uninterrupted supply and quality outcomes, making a meaningful impact on delivering therapies to patients who need them most.

About the Role

#LI-Onsite

Location: Indianapolis, IN

Shift: This role supports a continuous manufacturing environment and requires flexibility to work either a 4x3 12-hour shift (Monday–Thursday and Monday–Wednesday alternating weekly) or a 4x4 10-hour shift (Monday–Thursday).

Relocation Support: This role is based in Indianapolis, IN. Novartis is unable to offer relocation support: please only apply if accessible.

Key Responsibilities

- Supervise and support execution of corrective, preventive, and predictive maintenance and calibration activities across production equipment.
- Perform and coordinate maintenance and repair of manufacturing and laboratory equipment in a regulated environment.
- Troubleshoot complex mechanical, electrical, and control system issues with minimal supervision.
- Interpret process and instrumentation diagrams, wiring diagrams, and technical specifications to plan maintenance activities.
- Support startup, commissioning, and transition to full 24x7 site-based operations.
- Ensure ongoing maintenance support for continuous 24x7 manufacturing operations following site startup.
- Ensure adherence to quality, safety, and regulatory standards during all maintenance activities.
- Complete detailed work orders and maintain accurate documentation within computerized maintenance management systems.
- Provide technical guidance and training to maintenance technicians and support skill development across the team.
- Support investigations and deviations, contributing to timely closure of corrective and preventive actions.

Essential Requirements

- High school diploma or equivalent required; bachelor ' s degree in a technical field preferred.
- Minimum 5 years of hands-on plant maintenance experience in a regulated good manufacturing practice environment.
- Prior experience supervising or coordinating maintenance activities within a production or manufacturing setting.
- Strong troubleshooting skills across mechanical, electrical, pneumatic, and control system components.
- Experience working in cleanroom or controlled environments with strict quality and safety standards.
- Proficiency using computerized maintenance management systems, building management systems, and Microsoft Office applications.
- Ability to interpret technical documents including process and instrumentation diagrams, wiring diagrams, and equipment specifications.
- Ability to climb ladders and lift up to 50 pounds, and work in physically demanding environments as required.

Desirable Requirements

- Experience supporting aseptic fill and finish operations and associated manufacturing equipment in a regulated environment.
- Experience working in radiopharmacy or radioactive materials environments, including completed training in radioactive or hazardous materials and familiarity with radiation detection equipment support.

Languages:

- English

The salary for this position is expected to range between \$93,800 and \$174,200 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.
