

Demand Planner

Job ID
REQ-10078093

6月 22, 2026

Colombia

摘要

#LI-Hybrid

Location: Bogota, Colombia

Relocation Support: This role is based in Bogota, Colombia. Novartis is unable to offer relocation support: please only apply if accessible.

As the Demand Planner, you will be responsible for the end-to-end planning of an assigned product portfolio, helping ensure products are available when needed while meeting targets for service level, inventory, and forecast accuracy. You will also look for practical ways to automate repetitive planning tasks, making day-to-day planning more efficient and reliable.

Working closely with commercial, operations, manufacturing sites, and supply chain teams, you will act as a key link between functions. Through Sales and Business Planning processes, you will help align plans and priorities, support smooth execution across the supply chain, and contribute to better planning accuracy, supply risk mitigation, inventory optimization, and continuous improvement of planning tools, processes, and systems.

About the Role

Key Responsibilities

- Own end-to-end supply planning for an assigned product portfolio.
- Balance demand, supply, and inventory to meet service, inventory, and forecast accuracy targets.
- Monitor supply plans and adjust for changes in demand, constraints, or business priorities.
- Collaborate with manufacturing sites and supply chain partners to ensure plan execution.
- Identify supply risks early and develop practical mitigation actions.
- Track and report performance against service level, inventory, and planning key performance indicators.
- Optimize inventory levels to reduce excess stock and potential write-offs. Support Sales and Business Planning processes with high-quality, timely inputs.
- Drive continuous improvement through better planning processes, tools, and automation.
- Escalate critical supply risks and ensure an action plan with an owner and due date, complying with policies and GxP quality requirements where applicable.

Essential Requirements

- Bachelor ' s degree in supply chain management, engineering, business, or a related field.
- Two to five years of experience in supply chain planning and/or analytics roles.
- Strong understanding of end-to-end supply chain planning processes.
- Experience in supply planning, demand and supply alignment, and inventory management.
- Knowledge of Sales and Business Planning processes and cross-functional planning environments.
- Strong analytical and problem-solving skills, with the ability to interpret large data sets.
- Intermediate or advanced English level proficiencies

Desirable Requirements

- Experience in Regulated Business, process or environments.

Commitment to Diversity and Inclusion

Novartis is committed to building an outstanding, inclusive work environment and diverse team representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients ' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we ' ll help you thrive personally and professionally.
