India

摘要

#LI-Hybrid

Location: Hyderabad, India

Relocation Support: This role is based in Hyderabad, India. Novartis is unable to offer relocation support for candidates outside India: please only apply if accessible.

The role MS&T Specialist is responsible for managing medical device service aspects focused to ensure accurate and timely preparation and maintenance of medical device technical documents, in accordance with cGMP (Current Good Manufacturing Practices), the Quality Assurance Agreement, regulatory requirements, the Novartis Quality Manual and is conducted according to the relevant Standard Operating Procedures and agreed between GOC and business partners.

About the Role

Major accountabilities:

- Support technology transfer, prepare & maintain Novartis medical device 's technical documents including Design History Files (DHF), Risk Assessment, Post-Market Surveillance (PMS) documents.
- Prepare & maintain Device Master Record (DMR), identify the gaps using manufacturing expertise, provide recommendations in compliance with the applicable standards (ISO, FDA, MDR, etc.,).
- Prepare and update post market surveillance (PMS) plan, related activities & report for medical devices.
- Collect, analyses and present data using appropriate visualization tool (e.g., Power BI) to support report preparation.
- Perform Data Administrator (DA) and Data Integrity (DI) check as per requirements.
- Initiate, manage and contribute to the Change Control process in management tools.
- Handling of SaMD activities. Maintaining documents related to SaMD (Distribution file, impact assessment of changes to SaMD distribution.). Collecting information related to regulatory compliances and co-ordinating with third-party manufacturer and business owner.
- Create and review GxP documents including SOPs, working procedures, trend reports, qualification reports and technical investigations, as and when needed.
- Provide active support during internal and external audits by collecting and presenting the requested process/data and reports.
- Support implementing service quality and process improvement projects, CAPA management within global operations Centers.
- Ensure compliance with the Novartis internal quality standards, relevant regulatory requirements, filed product quality standards and service level agreements.

Essential requirements:

- Scientific degree.
- Previous experience within the Medical Device/Pharmaceutical environment in a multinational organization.
- Data analysis/business intelligence expertise (e.g. Power BI, Excel, Minitab).
- Fluent in English.

Commitment to Diversity and Inclusion
