摘要

Master Data Expert support the Novartis Technical Operations Center- Supply Operations team in the coordination of various Supply Operations activities in compliance with GxP and Regulatory requirements while creating value for our internal customers across all Novartis divisions across geographies. Material Planner executes the material planning process for production sites with an aim to assure on time supply of all incoming materials to sites, optimal level of inventory and cost efficiency. Execute defined Inventory strategy with supporting new operating models and assuring right level of safety stock. Logistic, W&D is responsible that all logistic processes are proceed in a timely, high quality, efficient and effective manner and in full compliance with all laws and supply chain management policies and procedures. Identify and drive continuous improvement projects. Planning ensures material availability in line with the approved production plan. Order Management ensures Intercompany order fulfilment between customers and sites.

About the Role

Responsibilities:

- Creates complex reports, provides inventory overviews, and detailed analyses that support effective strategic decision-making by reviewing, analyzing, and merging data from various ERP (Enterprise Resource Planning) system data sources.
- Identifies potential risks or issues with materials or supply and escalates as needed
- Supports cross functional initiatives, identifies appropriate resources needed, assigns individual responsibilities, and develops project schedules.
- Creates and maintains inventory, material, and supply dashboards to be shared with senior leadership at the site weekly or monthly.
- Identifies potential supply chain process improvements and participates in developing solutions.
- Identifies opportunities for direct materials (BOM (Bills of Materials)) cost savings and/or opportunities to reduce inventory carrying costs.
- Evaluates material inventory and supply to support new product initiatives and interdepartmental requests.
- Interacts directly with MSAT (Manufacturing Science and Technology) and Mfg Tech Support related to new material introductions and cost savings projects.
- Develops current and forward-looking inventory balances as part of latest forecast submissions to FRA/BPA.
- Supports site or supply chain objectives.
- Other related duties as assigned. Responsibilities:
 - Creates complex reports, provides inventory overviews, and detailed analyses that support effective strategic decision-making by reviewing, analyzing, and merging data from various ERP (Enterprise Resource Planning) system data sources.
