With the increasing diversity of Novartis' portfolio, the need for driving our device portfolio is also increasing. As such, we are searching for a Senior Expert - Device Project Leader for joining our team in Basel or Schafftenau in the Portfolio & Customer Center within Global Device and Packaging Development.

Job Description

In the role of Senior Expert – Device Project Leader, you will be a vital part of the Portfolio & Customer Center within the Global Device and Packaging Development (GDPD) team based in Basel /CH or Schaffhausen/AT. Your primary responsibility is to guide and manage cross-functional project teams both within and outside of the GDPD. This includes representing GDPD in the CMC sub-teams, leading relevant discussions, gaining support, and securing approval for project strategy and changes with the primary focus on the Cell & Gene Therapy (C>) and Radioligand Therapy (RLT) projects.

About the Role

Your responsibilities include but are not limited to:

- Represent GDPD in CMC sub-teams, leading device-related discussions and securing endorsement for project strategy or changes.
- Lead cross-functional project teams, acting as a single point of contact (SPOC) for all device and packaging related issues.
- Plan, manage, and control project resources, schedules, and budgets.
- Assess and negotiate internal & external resource needs on an ongoing basis. Establish and maintain a high-quality if necessary adequate documentation up to Design History File, in case of the product is a combination product for developments and LCM projects until transfer to manufacturing sites.
- Ensure compliance with internal process requirements and current regulations, including Design Control, CMC, FDA combination product regulations and ISO requirements.
- Contribute to the improvement of process and delivery technology approaches.
- Evaluate suitable device technology to support different project phases.
- Support internal and external audits on packaging and medical device related matters.
- Assist teams in regulatory dossiers preparation, including documents for medical

device/combination product registration and in responding to health authority queries.

Essential Requirements:

- Master or PhD (preferred) in natural science, engineering, pharmaceutical field or equivalent.
- Minimum 2-4 years of experience in the pharmaceutical industry, preferably with experience exposure to C> and RLT and to drug-device combination product technical development including technical operations.
- Ability to work and lead a cross-functional team in a matrix environment
- Proven knowledge and track record in project and program planning and execution
- Understanding and awareness of regulatory guidelines for drug-device combination products, including relevant ISOs and current good manufacturing practices (cGMP).
- Collaborative spirit, self-driven attitude, high level of learning agility, good listening skills, strategic thinker.
- Fluent in English (oral and writing), German is beneficial

Rewards:

In addition to a market-competitive base salary, we offer an attractive incentive program, a modern company pension scheme, childcare facilities, learning and development opportunities as well as worldwide career possibilities within the Novartis group: In accordance with Austrian law, we are obliged to disclose the minimum salary as stated in the collective bargaining agreement. For this position the minimum salary is € 65,605.54 EUR/year (on a full-time basis). The actual salary will be significantly higher, as we strive to maintain a competitive position in the market and consider your previous experience, qualifications and individual competencies. We are open for part-time and job-sharing models and support flexible and remote working where possible.

Commitment to Diversity and Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and

diverse teams ' representative of the patients and communities we serve.
