Internal job title: Monitoring - Functional Excellence Lead

Great clinical trials depend on exceptional monitoring, and this is your opportunity to help shape what that looks like across Novartis. As GCP Excellence Monitoring Lead, you will play a pivotal role in advancing innovative, data-driven monitoring approaches that improve trial quality, efficiency and patient outcomes. Working at the forefront of clinical operations transformation, you will drive monitoring excellence, champion adaptive monitoring practices, and influence how monitoring

strategies are implemented across a global organisation. If you are passionate about innovation, continuous improvement and delivering operational impact at scale, this is an exciting opportunity to help redefine the future of clinical trial oversight.

About the Role

Key Responsibilities

- Lead the implementation of innovative, data-driven monitoring strategies across global clinical development programmes.
- Drive the adoption of adaptive monitoring approaches aligned with risk-based quality management principles.
- Partner with cross-functional teams to enhance trial oversight, quality and operational effectiveness.
- Shape and improve monitoring processes, tools, standards and governance frameworks.
- Lead change and transformation initiatives that advance monitoring excellence across the organisation.
- Champion innovation through analytics, technology enablement and continuous improvement programmes.
- Monitor performance metrics and compliance outcomes, driving sustainable enhancements and best practices.

Essential Requirements

- Degree in life sciences, business, operations or a related discipline.
- Strong experience delivering innovative approaches within clinical trials and clinical operations environments.
- Deep understanding of clinical trial oversight, monitoring practices and regulatory expectations.
- Proven ability to lead complex projects and influence cross-functional stakeholders globally.
- Experience using data, analytics and insights to drive continuous improvement and decision-making.
- Excellent communication, collaboration and change leadership skills within matrix organisations.

Benefits & Rewards

At Novartis, we're committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Annual Base Salary Range for role: £ 67,900 to € 126,100

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.

You may be eligible for a company vehicle or a car allowance in accordance with the applicable local Novartis policies and guidelines.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.
