

Medical Manager - Oncology

Job ID
REQ-10087815

9月 16, 2026

Malaysia

摘要

In line with overall product strategy, the Medical Manager is responsible for supporting the design, implementation and execution of Medical Affairs plans for assigned Therapy Area, providing scientific information, helping design & organise clinical studies, building educational dialogue with KOLs and regulatory stakeholders

About the Role

Major accountabilities:

- Ensure medical enquiries are responded to in a high quality, timely manner, and in accordance with applicable standards; establish standard response documents as appropriate, for frequently asked questions.
- Provide medical/scientific input into the development and execution of clinical trial or clinical research related activities, including initiation and oversight of clinical studies / clinical

research within the respective therapeutic area.

- Support country strategy for Non Interventional studies/Investigator Initiated Trial activities.
- Coordinate review and approval of medical materials and locally developed promotional materials; ensure medical materials provided from global or region for stakeholder engagement and events are tailored to local needs and reviewed/approved per local/P3 guidelines.
- Ensure medical insights are provided to cross functional groups, including, but not restricted to: Pharmacovigilance, Regulatory affairs, Market Access, QA, Commercial teams, Brand team and others.
- Responsible for risk identification and assessment, mitigation planning as well as implementation and monitoring of appropriate internal controls within the area of responsibilities.
- Ensure robust medical governance processes & KPI are met for the department

Requirements:

- Degree in Medicine or PhD in Life science, Pharmacy or relevant scientific discipline
- Minimum 2 years of solid experience in Medical Affairs within the pharmaceutical, biotechnology, or healthcare industry.
- Strong understanding of scientific communication, evidence generation, and medical governance requirements.
- Ability to interpret clinical data and translate scientific insights into practical recommendations for internal and external stakeholders.
- Proven ability to collaborate effectively across functions and work in a dynamic, matrix environment.
- Strong project management, communication, and stakeholder engagement skills.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally. [Read our handbook \(PDF 30 MB\)](#)
