摘要

#LI-Remote
Location: Atlantic & Ottawa

This role is based in Atlantic Canada. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

Join Novartis at a pivotal moment in Immunology as we prepare to bring an exciting new therapy to patients across Canada. This is a unique opportunity to shape the scientific landscape of a high-profile launch asset, working at the forefront of innovation in Dermatology and Allergy. As a Medical Science Liaison, you will build trusted partnerships with leading healthcare professionals, generate meaningful scientific insights, and help drive evidence-based medical strategy during a time of significant interest and anticipation from the medical community. If you are energized by launching innovative medicines, influencing patient care through science, and collaborating with passionate cross-functional teams, this role offers the chance to make a lasting impact on patients, healthcare professionals, and the future of Immunology at Novartis.

About the Role

Key responsibilities:

- Create a network of peer-to-peer scientific relationships and developing a network of healthcare professionals for partnership.
- Provide and discuss scientific information and data to ensure concepts are understood and information / insights are gathered to better inform Novartis research and set the overall strategic direction for the company.
- Develop and execute engagement plans that demonstrate an ability to stringently prioritize and strategically engage medical experts aligned with business priorities.
- Liaise and provide up-to-date medical information to relevant external groups to ensure evidence-based understanding of Novartis products relative to medical guidelines, and health economic information.
- Demonstrate an entrepreneurial mind set and ability to work within a cross-functional team in a matrix environment.
- Be agile and adaptable to interface and provide value across a continuum of both internal and external stakeholders.

Essential Requirements:

- MD, PharmD, PhD or other life sciences degree with solid medical/technical background and proven competencies influencing skills, clinical research insight, business and market knowledge.
- Scientific expertise in Dermatology/Allergy is highly desired.
- A proven ability to develop and foster peer-to-peer, credible relationships with Medical Experts/decision makers.
- Ability to synthesize complex scientific information and analyze it within strategic and regulatory settings with a strong personal integrity and customer focus.
- Familiarity with reimbursement processes in Canada.
- A valid driver's license is required for this field-based position and ability to travel throughout the territory up to 70%.
- Previous experience in the Pharmaceutical industry
- Previous experience as an MSL (3 years minimum)

Desirable Requirements:

- Derm and Allergy scientific and customers knowledge

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
